

A.G. SCHIPPER MULTI-SITE

A DIVISION OF MENEMSHA SOLUTIONS

PROGRAM ROLLOUTS

Built for multi-site and program rollout initiatives, we are uniquely structured to manage a program's aggressive pace. An intuitive knowledge and infrastructure that supports resource planning, coordination, logistics, and expectations ensures our program's success.

From the ground up, Menemsha has customized its operations to anticipate and manage the challenges of multi-site projects.

Our skilled teams are equipped with the tools, resources, and technology to foresee challenges and resolve them in real time to keep programs on track.

With a national footprint, our regionally based staff communicates seamlessly with Program Managers, Crew Foremen, and field-based Project Management.

We view project cleanliness and consistent communication with our clients' operations management as important as quality when working in an open environment.

Understating that our client is our operations partner, we realize our success is your success on any multi-site program.
